## **Trilogy Circuits Ranks No. 57 at Dallas 100™ Awards**

*Premier EMS provider named one of Dallas' fastest-growing companies*

**Richardson, Texas –Dec. 02, 2008** – The Dallas 100™ Awards recently recognized **Trilogy Circuits**, a premier EMS provider, as the 57<sup>th</sup> fastest-growing company in the Dallas area. The award, presented by The Caruth Institute for Entrepreneurship at Southern Methodist University's Cox School of Business, was a first for [Trilogy Circuits](#) at the 18<sup>th</sup>-annual ceremony held at the Morton H. Meyerson Symphony Center on Nov. 20.

Trilogy Circuits provides turnkey services for the development of electronic products and devices. From [printed circuit board layout](#) to [fully assembled boards](#), Trilogy Circuits helps its customers reduce production cycle times in a very efficient manner. Trilogy qualified for the award by having sales of at least \$500,000 and not more than \$75 million in 2007, as well as a three-year sales history that reflects significant growth. Both percentage growth and dollar growth were considered in the rankings. In order to be eligible for the award, the companies also had to be independent, privately held corporations with headquarters in the Dallas area.

“With this award, Trilogy Circuits shares a space on this prestigious list with many of Dallas’ – and in many cases, the nation’s – most-respected companies in their respective industries,” said Charles Capers, CEO of Trilogy Circuits. “Trilogy continues to make a name for itself in the EMS industry, and this honor helps solidify our accomplishments and how far we’ve come over the past three years.”

### **[About Trilogy Circuits](#)**

Trilogy Circuits provides turn-key services for the development of electronic devices and products. From printed circuit board (PCB) design to fully assembled boards as well as complete box and cable assemblies, Trilogy helps its customers achieve a faster time-to-market in an efficient manner. The company is headquartered in Richardson, Texas. For more information, visit [www.trilogycircuits.com](http://www.trilogycircuits.com).
